**SPECIALIST  
IN BOILER  
SCAFFOLDING**

# ATULYA SCAFFOLDING SAFETY AND SERVICES LLP

Safety First Priority, Fast, Safe, and  
Reliable Scaffolding – Every Time.

## HEAD OFFICE

Bharthipur, Kakwa Road.  
Amethi (U.P.) – 227405

Mob. 880217022 / 965157387

Phone: 05386-298077

Email: [atulyascaffoldingsservices01@gmail.com](mailto:atulyascaffoldingsservices01@gmail.com)

## OUR CORE STRENGTHS

- ✓ Specialists In Boiler Scaffolding
- ✓ Certified and Experienced Professionals
- ✓ Advanced Time saving Methods
- ✓ Safety-focused Execution
- ✓ Power Plant Expertise
- ✓ Timely Completion of Projects

## OUR SERVICES

- Boiler Scaffolding  
(Shutdown & Maintenance)
- Scaffolding Erection  
& Dismantling
- Scaffold Inspection  
& Safety Compliance
- Customized Solutions for  
Complex Power Plant Structures
- Customized Scaffolding training  
program

## WHO WE ARE

Atulya Scaffolding Safety and Services LLP is a leading Service provider in Boiler Scaffolding, specially for Power plants. With over 14 years of field experience, we offer expert manpower. Innovative techniques, and certified safety standards. Our scaffolding solutions are designed to save time and safety during critical shutdowns and maintenance operations.

## MANAGING PARTNERS

- Mr. Anoop Kumar Pandey  
*Specialist in Boiler Scaffolding*  
Over a decade of on-site scaffolding expertise in major power projects
- Mr. Arunesh Pandey  
*Aeronautical Engineer*  
Provides strategic planning and technical supervision

## OUR VISION

- Safety First: • Efficiency in Execution
- Client Satisfaction • Continuous Innovation

## SPECIALIZATION IN BOILER SCAFFOLDING - THERMAL POWER PLANTS

Atulya Scaffolding Safety and Services LLP, we specialize in boiler scaffolding solutions specifically designed for safe, efficient and structurally sound scaffolding in inspection, maintenance, and overhauling activities.

### KEY FEATURES OF OUR SPECIALIZATION

- ✓ **Expertise in High-Pressure Boilers.** Design and erection of scaffolding structures for high-pressure boiler areas including water walls, superheaters, economizers, and steam drums.
- ✓ **Custom Scaffold Design:** Tailor-made scaffolding solutions based on boiler layout, plant specifications, and shutdown requirements.
- ✓ **Quick Mobilization for Shutdowns/Overhauls,** Specialized scaffolding setups during planned and unplanned shutdowns with minimal downtime.
- ✓ **Safety-Centric Approach:** All scaffolding works as per EHS norms, IS standards, and plant-specific safety protocols.
- ✓ **Confined Space Operations:** Professionals working in narrow, high-temperature boiler activities under critical timelines.
- ✓ **Compliance & Documentation:** Scaffolding checklists, risk assessments, and handover reports in alignment with plant SOPs.
- ✓ **Skilled Workforce.** Team of certified scaffolders, supervisors, and safety officers experienced in working across major thermal plants.

### WE SUPPORT THERMAL PLANTS WITH:

- ✓ Annual Maintenance Contract (AMC) scaffolding
- ✓ Shutdown/Overhauling scaffolding
- ✓ Shutdown/Overhauling scaffolding
- ✓ Shutdown/Overhauling scaffolding
- ✓ Emergency breakdown and compliance reporting
